

André d'Alva

Software Engineering Student

André Luis Capela Neto d'Alva

4026 Vendég Ucta 84-86
Debrecen, Hungary

Contact: +36305949293

Email: andreluiscapela@gmail.com

Website: <https://webportifolio-one.vercel.app/>

GitHub: <https://github.com/Andre-Dalva?tab=repositories>

Technical Skills

Languages: Java , TypeScript, JavaScript (ES6+), SQL

Frontend: HTML5, CSS3 (Flexbox, Grid)

Backend: Spring Boot (Fundamentals), Maven

Concepts: Object-Oriented Programming, REST APIs, SOLID Principles, MVC Architecture

Tools: Git, GitHub

Experience

Project 1 / Mini School System

<https://sde-school-system-group.vercel.app/>

Led a team project focused on developing a CRUD-based school management system

Owned frontend architecture and implementation

Implemented user and teacher authentication interfaces

Built frontend interfaces for class creation and account management

Integrated REST APIs for create, read, update, and delete operations

Implemented client-side validation and structured error handling

Designed responsive UI using HTML5 and CSS3

Project 2 / Weather App

<https://weather-app-xi-indol-67.vercel.app/>

Built API-driven application for real-time weather data retrieval

Implemented asynchronous data fetching and state updates

Designed responsive layout and user-friendly interface

Handled API responses and potential runtime errors

Project 3 / Web Portifolio

<https://webportifolio-one.vercel.app/>

Designed and developed personal developer portfolio

Showcases technical projects and GitHub repositories

Implemented responsive design principles

Education

University Of Debrecen / Bcs Computer Science Engineering

September 2023 - February 2027 (Expected), Debrecen, Hungary

Relevant Studies:

Data Structures & Algorithms, Databases, Object-Oriented Programming,
Low-Level Programming, Software Engineering
